### EQUINIX WARSAW DATA CENTERS

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most-networked data centers. Our Warsaw data centers are business hubs for 355+ companies. Warsaw customers can choose from a broad range of network services and can also interconnect directly to customers and partners in their digital supply chain. The Equinix Warsaw metro International Business Exchange™ (IBX®) data centers offer approximately 20,000 square feet (1,875+ square meters) of colocation space.

The Warsaw colocation facilities enable customers to be part of a highly connected digital ecosystem that includes Equinix Internet Exchange Poland (formerly known as PLIX); which is the largest internet exchange in Poland. These data centers offer direct access to a variety of network providers for greater choice, flexibility, network resilience, cost savings and speed to market.

With technology at its roots, fuelled by high levels of innovation, low costs and a strong talent pool, Warsaw is poised to become one of Europe's digital heavyweights.

### WARSAW IBX® BENEFITS

- One of East-Central Europe's key economic hubs, with connectivity in Poland linking western and eastern Europe
- Economically and politically stable with a large domestic market
- Continuous GDP growth in every quarter since 2007

## IBX TECHNICAL SPECIFICATIONS
